Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 3, 2003 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 84 is rejected under 35 U.S.C. 102(b) as being anticipated by Okawa, U.S. 5,692,162 (Nov. 25, 1997).

Okawa discloses a video game system including:

- a. External memory for storing a video game program. *See fig 1(30).*
- b. Game microprocessor for executing the video game program. *See fig 1(23).*
- c. Player controller operable by a player for generating video game control signals. *See fig. 1(26)).*
- d. Coprocessor coupled to the game microprocessor for cooperating with the game microprocessor to execute the video game program to process 3D graphic information wherein the coprocessor is operable to communicate at least one player controller related command requesting an operation be performed relating to the video game control signals generated by the player controller. *See fig. 1(5,24); col. 1:52-67,5:237-37.*

Art Unit: 3714

e. Peripheral processing subsystem coupled to the coprocessor and operable to receive the player controller related command and for executing the command to thereby perform the operation related to the video game control signals and transmit a response to the player controller command to the coprocessor. *See fig. 1(25)*. The system includes an I/O interface with the game controller which processes player control commands and transmits an output to the video processor via the main CPU in order to execute the player command.

As listed above, Okawa teaches every feature of the claim. Consequently, the claimed invention is anticipated by Okawa .

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven Ashburn whose telephone number is 703 305 3543. The examiner can normally be reached on Monday thru Friday, 8:00 AM to 4:30 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Derris H Banks can be reached on 703-308-1745.
